LOCTITE PRODUCTS FOR ENGINEERING

603

ANAEROBIC RETAINER

For high strength of close fitting parts. Use to restore or strenthen press fits of shafts, bushes, rotors, or similar cylindrical parts.

Price per 10 ml **£6.25**

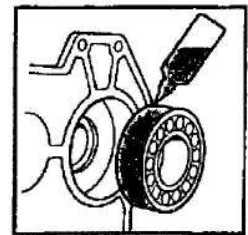

641

BEARING FIT

Recommended for parts that need subsequent dismantling. Bearings and bushes retained by this product can be readily dismantled using ordinary tools and methods. Also prevents fretting corrosion.

Price per 10 ml **£6.15**

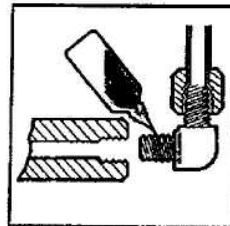

542

HYDRAULIC SEAL

Recommended for hydraulic and pneumatic systems, particularly those subjected to vibration. 542 replaces tapes, pastes, compressive joints, and expensive self-sealing fittings.

Price per 10 ml ... **£6.15**

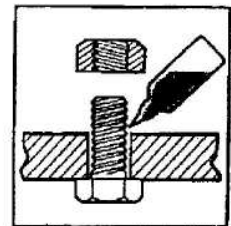

243

NUTLOCK

A medium strength retainer which avoids the use of Nyloc type nuts, lock nuts, star washers, spring washers, castleated nuts or tab washers. An ordinary spanner is all that is required to release the nut when this product is used.

Price per 10 ml **£6.15**

LOCTITE SUPER ATTAK

(The new replacement for Super Glue 3)

The new universal instant glue - for china, metals, wood, leather, rubber, card and most plastics.

Warning : Bonds skin and eyes in seconds . Keep safe from children.

Price per 3 gm tube..... **£2.50**
